

Chitransh Daiya

UI Designer | Frontend Prototyper

 +91-7803046464  daichitransh@gmail.com  Behance  Portfolio

UI-focused Computer Science student creating visually engaging digital experiences through storytelling, interaction, and thoughtful execution. Comfortable moving from concept and prototyping to frontend implementation.

Education

Ujjain Engineering College	2023–2027
B.Tech in Computer Science Engineering	
The Prime Academy	2021–2023
Jawahar Navodaya Vidyalaya	Till 2021

Selected Experience

Helping Society Platform	2026
UI Contributor & Frontend Collaborator	
- Designed and implemented responsive interfaces for a community-focused platform using React and Tailwind CSS. - Developed reusable UI components, authentication screens, forms, and dashboard experiences. - Collaborated closely with backend development to translate requirements into polished user interfaces.	

Selected Case Studies

De Ville	2026
Cinematic Editorial Experience	
- Developed a dark luxury visual direction inspired by cinematic storytelling and vintage aesthetics. - Designed motion-driven prototypes and interactions to create an immersive experience. - Refined AI-generated assets through manual masking, experimentation, and iterative visual exploration. - Documented the complete creative process through an in-depth Behance case study.	
VYRO	2026
Energy Brand Experience	
- Designed a cohesive experience system spanning three product personalities. - Established reusable visual language, UI components, and atmospheric assets. - Balanced distinct identities while maintaining consistency across the brand ecosystem. - Presented the design rationale and process through a detailed Behance case study.	

Skills

Design

Figma • Visual Design • Interaction Design • Creative Direction • Typography • Motion Prototyping • Design Systems

Implementation

React • Tailwind CSS • HTML/CSS • Framer Motion

Creative Workflow

Asset Refinement • Rapid Prototyping • Editorial Storytelling • Visual Systems Thinking
